

I N D E X T O V O L U M E 1 1 3

Subjects

ABDOMEN

- Chylous ascites in peritoneal cavity of AIDS patient. (PP) 113(3):95

AGING

- Characteristics of diffuse Lewy body disease and ways to optimize quality of life for patients who have this type of dementia. 113(5):71*
- Guidelines for identifying and intervening in cases of intimate partner violence and elder abuse. 113(3):21*
- How aging affects thyroid function, how to determine which elderly patients to screen for thyroid dysfunction, and treatment guidelines. 113(5):54*
- Making informed choices about hormone replacement therapy. (PN) 113(4):101
- Prevention and treatment of bedsores or decubitus ulcers in elderly or immobilized patients. 113(5):77*
- Risks, benefits, and uncertainties of postmenopausal hormone therapy. (ED) 113(3):15
- Special considerations when treating syncope in older patients. 113(1):37

AIRWAY OBSTRUCTION

- Differentiating asthma from other work-related obstructive ventilatory defects. 113(4):72
- Living with asthma. (PN) 113(3):127

ALLERGY

- Hypersensitivity pneumonitis caused by work-related inhalation of organic substances. 113(4):83*
- Prevention, diagnosis, and management of cutaneous and airborne allergic reactions to latex in healthcare setting. 113(4):91*

*Major clinical discussion
CC, Curbside Consults
ED, Editorial
PD, Pearls in Dermatology
PN, Patient Notes
PP, Puzzles in Practice

- Role of work-related allergens in development of lung diseases such as hypersensitivity pneumonitis. 113(4):70*

ALOPECIA

- Causes and treatments for hair loss. (PN) 113(1):97

ALZHEIMER'S DISEASE

- Differentiating Alzheimer's and Parkinson's disease from diffuse Lewy body disease when symptoms are similar. 113(5):71

ASTHMA

- Living with asthma. (PN) 113(3):127
- Recognizing role of workplace in adult-onset asthma. 113(4):70*

BACTERIAL DISEASES

- Bacterial and viral causes of tonsillitis. 113(3):115
- Bacterial pneumonia from aspirated bacteria ineffectively cleared from the lung. 113(3):99*
- Common misperceptions about causes of antibiotic resistance in community-acquired pneumonia. 113(1):42

BEHAVIOR DISORDERS

- Help for obsessive-compulsive disorder. (PN) 113(2):91

BEHAVIORAL MEDICINE

- Use of behavioral modification to enhance patient compliance for chronic pain treatment. 113(4):56

CANCER See Neoplasms**CARCINOMAS**

- Adenomatous polyps found during colonoscopy generally premalignant but may become carcinomas. 113(2):49

CARDIOVASCULAR DISEASES

- Approaches and guidelines for management and treatment of acute and chronic heart failure in patients with left ventricular systolic dysfunction. 113(3):36*

- Clinical management techniques to improve functional capacity and long-term outcomes in patients with diastolic heart failure. 113(3):51*
- Dosage considerations for β -blockers and other medications for managing chronic heart failure. 113(3):63*

- Evaluation and treatment for cardiac and neurocardiogenic origins of syncope. 113(1):31

- Guidelines for treating diabetic nephropathy to reduce risk for cardiovascular events in patients with type 2 diabetes. 113(5):35

COLONIC DISEASES

- Polyps and cancer of colon and rectum, discussion of screening methods. 113(2):49*

DELIVERY OF HEALTHCARE

- Collaboration among physicians, nurses, psychologists, and physical and occupational therapists for managing chronic pain. 113(4):49*
- Reducing time patients wait for office appointments. (ED) 113(3):13

DERMATOLOGY

- First- and second-degree burns caused by lightning strike. (PP) 113(6):67
- Symptoms and treatment of shingles. (PN) 113(6):87

DIABETES

- Development of insulin and new formulations for insulin regimens to approximate normal glycemic control for patients with diabetes. 113(6):30*
- Ongoing adjustments in insulin management for patients with type 2 diabetes. 113(6):59*
- Physiologic features of type 1 diabetes, insulin therapy, and three algorithms to help patients balance eating, exercise, and insulin requirements. 113(6):39*
- Treatment guidelines and renoprotective therapies to curtail risks of nephropathy and cardiovascular disease in patients with diabetes. 113(5):35*

continued

- Use of albumin level as guideline for referrals in diabetic nephropathy. (CC) 113(2):11

DIAGNOSTIC TECHNIQUES

- Computed tomography, Doppler recordings, and magnetic resonance imaging for evaluating pericardial disease. 113(3):53
- Fecal occult blood test, flexible sigmoidoscopy, double-contrast barium enema, and colonoscopy as screening methods for colorectal cancer and polyps. 113(2):49*
- Pap smears, testing for high-risk human papillomavirus DNA, and colposcopy to detect cervical cancers in time for intervention. 113(2):59*

DRUGS, ACE INHIBITOR

- Antihypertensive effect of drug therapy can reduce or prevent nephropathy in patients with type 1 diabetes and microalbuminuria or macroalbuminuria. 113(5):35
- Antihypertensive therapy for diastolic heart failure. 113(3):56
- Drug therapy for heart failure often includes ACE-inhibitors, diuretics, or digoxin in addition to β -blockers. 113(3):63
- For treatment of chronic heart failure and improved long-term survival. 113(3):36
- Use of antihypertensive medications in patients who have renal disease. 113(2):76

DRUGS, ANALGESIC

- Use of analgesics and opioids for management of chronic pain. 113(4):59

DRUGS, ANGIOTENSIN II RECEPTOR BLOCKER

- Drug therapy to slow progression of albuminuria and nephropathy in patients with type 2 diabetes. 113(5):35
- Recommended for some diabetic patients. (CC) 113(2):11
- Use in patients with heart failure. 113(3):36

DRUGS, ANTIARRHYTHMIC

- Use in treatment of syncope. 113(1):36

DRUGS, ANTIBIOTIC

- Common misperceptions about causes of antibiotic resistance in community-acquired pneumonia. 113(1):42
- Treatment of tonsillitis. 113(3):117
- Use in treating aspiration pneumothorax. 13(3):106

- Use of erythromycin for treating pityriasis rosea (PD) 113(5):93

DRUGS, ANTIDEPRESSANT

- Setting patient expectations when prescribing tricyclic antidepressant as part of pain control therapy. 113(4):59
- Use in obsessive-compulsive disorder. (PN) 113(2):91

DRUGS, ANTIDIABETIC

- Advances in insulin therapy and three algorithms to help patients balance eating, exercise, and insulin requirements. 113(6):39*
- Development of insulin and new formulations for insulin regimens to approximate normal glycemic control for patients with diabetes. 113(6):30*
- Ongoing adjustments in insulin management for patients with type 2 diabetes. 113(6):59*

DRUGS, ANTIPSYCHOTIC

- Suspicion of diffuse Lewy body disease in severe or life-threatening reaction to antipsychotic drugs and rapid cognitive decline in older patients. 113(5):73

DRUGS, ANTIVIRAL

- Antiviral drugs and severity and duration of shingles. (PN) 113(6):88

DRUGS, β -BLOCKER

- Dosage considerations for managing chronic heart failure. 113(3):63*
- For treatment of chronic heart failure and improved long-term survival. 113(3):36*
- Prevention of tachycardia to improve diastolic function. 113(3):56
- Use in treatment of syncope. 113(1):36

DRUGS, CORTICOSTEROID

- Use in chronic hypersensitivity pneumonitis. 113(4):84

DRUGS, DIURETIC

- Diuretics used in conjunction with ACE inhibitors and β -blockers to control fluid retention in patients with heart failure. 113(3):42
- Use with β -blockers for treatment of heart failure. 113(3):63

DRUGS, HORMONE

- Drugs used to ease side effects of prostate cancer treatment. (CC) 113(5):4

- Making informed choices about hormone replacement therapy. (PN) 113(4):101
- Risks, benefits, and uncertainties of postmenopausal hormone therapy. (ED) 113(3):15
- Use of hormone replacement therapy as risk factor for breast cancer. 113(2):36

DRUGS, INOTROPIC

- Use of digitalis to increase cardiac contractility and quality of life in patients with heart failure. 113(3):43

DRUGS, INTERFERON

- Combination interferon and ribavirin drug therapy in patients with chronic hepatitis C virus infection. 113(2):76

DRUGS, SELECTIVE SEROTONIN REUPTAKE INHIBITOR

- Use in treatment of syncope. 113(1):36

ECHOCARDIOGRAPHY

- Noninvasive evaluation of suspected diastolic dysfunction with two-dimensional and Doppler echocardiography. 113(3):53

EYE DISEASES

- Blurry or opaque area in center of vision or colors that seem "off" as symptoms of macular degeneration. (PN) 113(5):105
- Differential diagnosis for tunnel vision. (CC) 113(3):4

GENITAL DISEASES

- Human papillomavirus infection and its role in warts, dysplasias, and cervical cancer. 113(2):61

GERIATRICS See Aging

GUIDELINES, CLINICAL PRACTICE

- Guidelines for identifying and intervening in cases of intimate partner violence and elder abuse. 113(3):21*
- Implementing latest guidelines for managing chronic pain. 113(4):49*
- Indications for using insulin and reappraising treatment plans as type 2 diabetes progresses. 113(6):59
- Physiologic features of type 1 diabetes, insulin therapy, and three algorithms to help patients balance eating, exercise, and insulin requirements. 113(6):39*

continued

- Treatment guidelines and renoprotective therapies to curtail risks of nephropathy and cardiovascular disease in patients with diabetes. 113(5):35*

HEALTHCARE POLICY

- Balancing benefits of collecting patient information to improve medical care with risk that confidential information may fall into wrong hands. (ED) 113(5):15

HISTORY OF MEDICINE

- History of insulin discovery and recent advances in diabetes management. 113(6):30*

HOME CARE

- Clues that home caregivers are stressed to point of abusing elderly, and help for vulnerable patients. 113(3):21*
- Prevention and treatment of bedsores or decubitus ulcers in elderly or immobilized patients. 113(5):77*

HORMONES

- Drugs used to ease side effects of prostate cancer treatment. (CC) 113(5):4
- Risks, benefits, and uncertainties of postmenopausal hormone therapy. (ED) 113(3):15
- Use of hormone replacement therapy as risk factor for breast cancer. 113(2):36

HYPERTENSION

- Occurrence of hypertension in most patients at onset of renal disease. 113(2):73*
- Tight control of blood pressure in patients with type 2 diabetes, to slow progression of renal failure. 113(5):35

HYPERTHYROIDISM

- How aging affects thyroid function, how to determine which elderly patients to screen for thyroid dysfunction, and treatment guidelines. 113(5):54*

HYPOTHYROIDISM

- How aging affects thyroid function, how to determine which elderly patients to screen for thyroid dysfunction, and treatment guidelines. 113(5):54*

INFECTION

- Bacterial and viral causes of tonsillitis. 113(3):115

- Bacterial colonization of pressure ulcers. 113(5):88
- Clinical features and risk factors for SARS. (CC) 113(6):24
- Infections by nematodes, mycoses, bacteria, and viruses in immunocompromised patients. 113(1):65*
- Infectious and noninfectious causes of nonresolving pneumonia, immune defense factors, and approaches to judicious evaluation. 113(1):79*

INFLAMMATION

- Inflammatory disorders that may be misdiagnosed as pneumonia. 113(1):86

KIDNEY DISEASES

- Features of renal disease associated with hepatitis C, therapeutic options. 113(2):73*
- Treatment guidelines and renoprotective therapies to curtail risks of nephropathy and cardiovascular disease in patients with diabetes. 113(5):35*
- Use of albumin level as guideline for referrals in diabetic nephropathy. (CC) 113(2):11

LIVER DISEASES

- Role of hepatitis C virus in liver disease and possible renal complications. 113(2):73*

LUNG DISEASES

- Antimicrobial resistance among pulmonary microbes that cause community-acquired pneumonia. 113(1):42
- Basic concepts of work-related lung disorders for primary care physicians. 113(4):70*
- Clinical features and risk factors for SARS. (CC) 113(6):24
- Community-acquired pneumonia in immunocompromised patients. 113(1):65
- Evaluating work-related diffuse parenchymal lung diseases and acute pulmonary irritant reactions. 113(4):81*
- Infectious, noninfectious, and drug-related causes of nonresolving pneumonia, immune defense factors, and approaches to judicious evaluation. 113(1):79*
- Living with asthma. (PN) 113(3):127

- Predisposing factors and microbial origins of aspiration pneumonia, recommendations for treatment and prevention. 13(3):99*

MENOPAUSE

- Making informed choices about hormone replacement therapy. (PN) 113(4):101
- Risks, benefits, and uncertainties of postmenopausal hormone therapy. (ED) 113(3):15
- Use of hormone replacement therapy as risk factor for breast cancer. 113(2):36

MOUTH DISEASES

- Diagnosis of burning sensation in oral cavity. (CC) 113(4):46

NEOPLASMS

- Assessment of colorectal cancer risks and discussion of screening methods. 113(2):49*
- Chylous ascites caused by Kaposi's sarcoma. (PP) 113(3):95
- Drugs used to ease side effects of prostate cancer treatment. (CC) 113(5):4
- Infectious pneumonitis in cancer patients. 113(1):82
- Screening mammography in women with increased risk for breast cancer and proven prevention techniques based on individual level of risk. 113(2):34*

NURSING HOMES

- Prevention and treatment of bedsores or decubitus ulcers in elderly or immobilized patients. 113(5):77*

OBSTETRICS/GYNECOLOGY

- Diagnostic techniques for early detection, management guidelines, and treatment options for cervical cancer. 113(2):59*

PAIN

- Implementing latest guidelines for managing chronic pain. 113(4):49*

PARASITES

- Opportunistic infection by nematode *Strongyloides stercoralis* in immunocompromised patients. 113(1):65

continued

PATIENT EDUCATION

- Asthma. (PN) 113(3):127
- Hormone replacement therapy. (PN) 113(4):101
- Macular degeneration. (PN) 113(5):105
- Obsessive-compulsive disorder. (PN) 113(2):91
- Ongoing adjustments in insulin management for patients with type 2 diabetes. 113(6):59
- Physiologic features of type 1 diabetes, insulin therapy, and three algorithms to help patients balance eating, exercise, and insulin requirements. 113(6):39*
- Shingles. (PN) 113(6):87
- Unrealistic portrayals of medical practice in movies and patient misconceptions and expectations about healthcare. (ED) 113(6):9

PATIENT INFORMATION SECURITY

- Balancing benefits of collecting patient information to improve medical care with risk that confidential information may fall into wrong hands. (ED) 113(5):15

PHARYNGEAL DISEASES

- Diagnosis and management of tonsillitis. 113(3):115*

PHYSICIANS

- Major depressive disorder, bipolar disorder, and obsessive-compulsive disorder in physicians. (ED) 113(1):7

POISONING

- Poison control centers and treatment of work-related acute pulmonary irritant reactions. 113(4):86

PREVENTIVE MEDICINE

- Pap smear for detection of early precancerous cells, risk factors for cervical cancer. 113(2):59*
- Prevention and treatment of bedsores or decubitus ulcers in elderly or immobilized patients. 113(5):77*
- Whether hormone therapy can prevent Alzheimer's disease, bone loss, or cardiovascular disease. (ED) 113(3):15

PROSTATIC DISEASES

- Drugs used to ease side effects of prostate cancer treatment. (CC) 113(5):4

PSYCHIATRIC/PSYCHOSOCIAL DISORDERS

- Depression, anxiety, and personality disorders in patients with chronic pain. 113(4):55
- Major depressive disorder, bipolar disorder, and obsessive-compulsive disorder in physicians. (ED) 113(1):7
- Obsessive-compulsive disorder. (PN) 113(2):91

PUBLIC HEALTH

- Balancing benefits of collecting patient information to improve medical care with risk that confidential information may fall into wrong hands. (ED) 113(5):15

RESPIRATORY DISEASES

- Basic concepts of work-related lung disorders for primary care physicians. 113(4):70*
- Clinical features and risk factors for SARS. (CC) 113(6):24
- Predisposing factors and microbial origins of aspiration pneumonia, recommendations for treatment and prevention. 13(3):99*
- Work-related diffuse parenchymal lung diseases and acute pulmonary irritant reactions. 113(4):81*

SCREENING

- Cytologic screening, colposcopy, and risk factors for cervical cancer. 113(2):59*
- Fecal occult blood test, flexible sigmoidoscopy, double-contrast barium enema, and colonoscopy as screening methods for colorectal cancer and polyps. 113(2):49*
- Screening for and intervening in cases of intimate partner violence and elder abuse. 113(3):21*
- Screening methods and risk assessments as tools for breast cancer prevention. 113(2):34*

SEIZURES

- Evaluation and treatment of neurologic origins of syncope. 113(1):32

SKIN DISEASES

- Pityriasis rosea. (PD) 113(5):93
- Prevention and treatment of bedsores or decubitus ulcers in elderly or immobilized patients. 113(5):77*

SLEEP DISORDERS

- Evaluating elderly patients with excessive motor activity during REM sleep for diffuse Lewy body disease. 113(5):75

SURGERY

- Indications for tonsillectomy. 113(3):121

SYNCOPE

- Physical examination findings, and evaluation to distinguish serious causes of syncope from benign causes. 113(1):31*

THYROID DISEASES

- How aging affects thyroid function, how to determine which elderly patients to screen for thyroid dysfunction, and treatment guidelines. 113(5):54*

VIRAL DISEASES

- Human papillomavirus infection in development of cervical cancer. 113(2):61
- Renal disease associated with hepatitis C. 113(2):73*

VISION

- Blurry or opaque area in center of vision or colors that seem "off" as symptoms of macular degeneration. (PN) 113(5):105
- Differential diagnosis for tunnel vision. (CC) 113(3):4

WOMEN

- Diagnostic techniques for early detection, management guidelines, and treatment options for cervical cancer. 113(2):59*
- Risks, benefits, and uncertainties of postmenopausal hormone therapy. (ED) 113(3):15
- Screening methods and risk assessments for breast cancer prevention. 113(2):34*
